¹Emergency Operations (EMOPs): WFP carries out EMOPs in countries hit by sudden disasters such as floods; by more gradually-occurring disasters such as drought or crop failure; or by civil unrest, conflict, and/or displacement of large numbers of people. The typical duration for EMOPs is between three months and one year, but an EMOP can last up to two years.

²For situations in which communities will need more help to recover and to restore food security after the EMOP expires, WFP plans and implements a Protracted Relief and Recovery Operation (PRRO).

1999	240	332	14.4	4.1
2000	252	340	16.0	4.8
2001	241	321	18.0	5.3
2002	228	294	25.3	7.9
2003	256	345	29.7	10.1
2004	300	385	33.6	9.7
2005	282	363	40.7	10.6
2006	268	335	53.8	14.8
2007	331	412	77.5	23.1
2008	307	400	93.4	22.7
2009	333	416	114.3	28.6
2010	336	419	119.4	28.7

* Note: Nearly all of the grain used for fuel ethanol in the United States is corn; the small share of other grain used is not included in these figures. Also note that corn used for fuel ethanol in a given year comes from the previous year's crop; therefore, the 119 million tons of corn used for fuel ethanol in 2010 is reported as 28.7 percent of the 2009 grain crop of 416 million tons.

Source: Compiled by Earth Policy Institute with corn used for fuel ethanol from U.S. Department of Agriculture (USDA), *Feed Grains Database*, electronic database, at www.ers.usda.gov/Data/FeedGrains, updated 14 July 2010; U.S. corn and grain production from USDA, *Production, Supply and Distribution*, electronic database, at www.fas.usda.gov/psdonline, updated 9 July 2010.
